What you can expect from us:

Years of Convention Experience – We know exactly how hard it is to run a con, and we do everything we can not to make it any harder. We pride ourselves on being impeccably professional and able to handle most technical setups ourselves. We even bring our own cables and adapters.

Quality and Diversity of Programming – Vitamin H strives to present content that is professional, visually appealing, and educationally stimulating. No monotone delivery or bland Comic Sans PowerPoints here. And since we don’t limit ourselves to the current “major” fandoms, Vitamin H provides panels on subjects that aren't normally seen at conventions, giving your attendees a unique experience.

0% Cancellation Rate – If Vitamin H says we’re going to be somewhere, we will be. We know how much you have on your table and you don’t need some inexperienced panelists screwing up your con. Just call in Vitamin H and let the rest take care of itself!

No-show Insurance – Nothing is worse than having a panelist no-show and leaving those rooms you’ve paid good money for empty and unused. Vitamin H will remain on-call during the entire convention, ready to step in at a moment’s notice and present one of our panels in the event of any no-shows or last-minute cancellations. One time, an ice storm hit and we ended up being the ONLY guest still there on Sunday. We went into a panel room and improvised 6 straight hours of programming.

Opening Ceremony Video – Every Vitamin H guest appearance comes with the complimentary production of an AMV for your Opening Ceremonies! Examples of what we can do can be found on our YouTube Channel.

AMV League – Vitamin H runs the world’s first nationwide Anime Music Video tournament! You too can have your convention’s best videos showcased at the AMV League National Championships!

Graphic/Logo/Web Design – Need a logo? A t-shirt design? A map? A PowerPoint? We're pretty good at whipping up what you need. We also tend to throw in this kind of stuff for free (unless it's an inordinate amount of work or something that you're going to be selling).

What we expect from you:

Our needs are fairly minimal. All our panels are heavily audiovisual in nature, so we require a screen, projector, microphones, and speaker system for all panels. We will also need to be able to set up near enough to a power outlet to be able to plug in our computer.

Oh, and money. We would very much like for you to give us some money. We don’t think it’s TOO much to ask, given the sheer amount of quality programming we provide. See the next page (Compensation) for details.

If it is our first time working with your convention or company, we will offer you a 50% discount on our appearance fee.

**Guest status** - Vitamin H asks that your con announce us as guests on your website and social media. We will require guest badges for both members of our group, Annie and Kidd Bowyer.

**Food** - We will need either access to the green room (or some other con-provided meals), or a stipend of $25/day to cover food expenses ($35/day if your con is in a downtown city location, as food there tends to be significantly pricier).

**Travel expenses**: This depends on your con’s distance from our headquarters, as calculated by Google Maps.

**Accommodation** - Vitamin H will require lodging for all nights of your convention, starting with the night immediately prior to your convention (i.e. if your con runs Friday through Sunday, we will need accommodations Thursday night, Friday night, and Saturday night). If your con is more than a 3-hour drive (roughly 200 miles) from Dallas, we will need lodging Sunday night as well. One room will be sufficient to accommodate both of us, and we prefer a room with a single bed if possible.

**Prize support** - This only applies if we are running an AMV League Event or one of our game shows at your convention. For AMV League, we ask for a prize support of $35 cash, which will be used to purchase Amazon e-Gift Cards for winners (this is the best way to do AMV prizes, as many winners live far from the convention or even overseas, making shipping physical prizes prohibitively expensive). For other game shows, prizes will be at con’s discretion (e.g. anime merchandise, dealer’s room gift certificates, badges for next year, etc).

**Scheduling Restrictions** - Vitamin H has very few scheduling restrictions, most of which fall into the realm of “common sense.”

- We currently have no “hard limit” as to how much programming we can provide at a single convention. We love doing panels and can easily do 10-12 hours of programming, but if we start getting into the realm of 16, 18, 20+ hours, we may ask for additional compensation.
- We require a minimum of 10 hours between our last panel of the night and our first panel of the next day, for rest and sleep.
- Sufficient breaks in our programming schedule throughout the day for meals.
- If we are doing consecutive panels with no break in between, please have them all in the same panel room.
AMV League

Vitamin H’s National Animated Music Video Competition
What is AMV League?

No mere "AMV Contest," AMV League is a dedicated, multi-convention, Animated Music Video competition that is both friendly to new editors, with its fair, transparent judgment criteria, and challenging to veterans, with its ever expanding scope and scale.

No more wondering why a video won, or didn't win. The AMV League System ranks videos based not on the judges' favorite shows, the popularity of the song, or how well-known the editor is, but on simple things like the use of timing, choice of effects, and overall impact.

The winners of each AMV League Official Event will be automatically entered in the AMV League National Championships.

But my con already has an AMV contest!

It’s easy to convert your con’s AMV Contest into an AMV League Official Event! The only requirements are:

- Kidd and Annie Bowyer must be included among AMV judges. Your con may provide any number of additional judges.
- AMVs must be judged according to official AMV League Rules and Criteria (see pgs. 8-9) and each judge will provide his/her scores to Vitamin H for final tallying.
AMV League Rules and Criteria

1. AMV stands for "Animated Music Video." Animation from any source - Japanese, American, Video Game, 3D, 2D, etc. - will be accepted. Videos that are primarily live action will not be accepted.

2. Video resolution should be no less than standard definition. Audio should be CD quality or better.

3. We strongly prefer MP4 format. If you submit a video in any other format, we will convert it to MP4. If we cannot convert it to MP4, it will be disqualified.

4. You do not have to be present at an AMV League Event to win.

5. AMV League events consist of three local-level categories - Action, Drama, and Fun/Upbeat.
   - Action - High intensity AMVs that focus on movement and excitement. From epic sword battles to high-speed chases and even sports showdowns.
   - Drama - AMVs that focus on strong emotions. Heartwarming romance, gut-wrenching tragedy, and tense thrillers all belong here.
   - Fun/Upbeat - For all the videos who don't fit in to either of the other categories, whether surreal, funny, quirky, or catchy.

6. You may submit a maximum of one video per category per AMV League Event.

7. If the judges feel your video would be better suited for a different category, it may be reassigned.

8. If there are fewer than four submissions to any of the three local-level categories OR fewer than twelve qualifying submissions overall, all local-level entries will be placed into a single "Best Overall" category and judged appropriately. If there are fewer than six qualifying submissions overall, we will have an "AMV Showcase" consisting of all qualifying submissions as well as some of our favorite AMVs of all time from around the internet in lieu of a contest. In this case, all qualifying submissions will again be eligible for judging in future AMV League events.

9. AMVs will be judged on the following criteria. Each category will be scored on a scale of 1 to 20, for a maximum of 140 points.
   - Concept/Originality - Does the basic idea of the video work? Is the story or concept one that is both original and makes sense?
   - Emotional Appeal - Does the video make the viewer feel appropriately happy, sad, excited, scared or other feelings (depending on the category submitted)?
   - Aesthetic Appeal - Does the video look good? Do the special effects add to the quality of the video or detract from it? Does the music choice enhance the video or make it harder to watch?
   - Rhythm/Sync - Does what's happening on screen match the timing of the audio? Is there lip sync or mickey-mousing? Does what's happening on screen seem tied to some part of the song (be it beat, lyrics, or melody)?
   - Technical Prowess - Has the editor added any special polish to the video? Are filters, transitions and effects applied in ways that enhance the look of the video, or do they distract from the video? Does it seem like the editor understands how to control and execute those effects? Has the video been rendered and encoded properly, without artifacting or resampling issues?
   - Flow/Editing - Are cuts made in appropriate places? Does the motion onscreen flow well between cuts? Does the AMV feel like a single cohesive whole, with scenes transitioning well into one another, or does it feel like just a bunch of random unrelated scenes?
   - Rewatchability - Does the video hold up to repeated viewings? Is it one that people would want to experience again and again?

10. The highest-scoring video in each category shall win a "Best" award in that category. The highest-scoring video that does not win a "Best" award shall be named "Honorable Mention." All videos that win a "Best" or "Honorable Mention" award at the individual event level will be
entered into the AMV League Regional Championships. The top 10 videos at each Regional Championships will then move on to the AMV League National Championships.

11. ANY SINGLE VIDEO SHOWN AT AN AMV LEAGUE EVENT MAY NOT AGAIN BE SUBMITTED TO ANY OTHER AMV LEAGUE EVENT. Videos previously submitted to non-League AMV contests ARE eligible, as are videos that are submitted to a League Event and not shown at that Event.

12. Videos submitted to AMV League Events may not have been created earlier than two years prior to the deadline of the AMV League Event to which they are submitted. (e.g. If an AMV League Event's deadline is March 30, 2017, videos created earlier than March 30, 2015 are ineligible for that particular AMV League Event.)

13. All videos must be uploaded to a hosting site such as Google Drive or Dropbox. NO YOUTUBE OR OTHER STREAMING LINKS WILL BE ACCEPTED.

14. The following will result in immediate disqualification:
   - Exceedingly poor audio or video quality.
   - Visible watermarks (e.g. "TV Tokyo" or "Funimation" logo in the corner) or subtitles (such as fansubs) that are unrelated to the video. Covering subtitles or watermarks with black boxes, blur, pixelation, etc. or blowing your video up so that subtitles and watermarks are out of frame will also result in disqualification.
   - Any instance of opening or closing credits from the anime. Some exception may be made for the title of the anime, if related to the video.
   - Nudity, gore, or any use of profanity that would not be permitted in a PG-13 film.
   - Any credits, bumpers, etc. will be removed. If they cannot be removed, the video will be disqualified. We will add our own "MTV-Style" credits to each video. Some exception may be made for the title of the AMV, if it looks professional and is relevant to the video.

15. By submitting a video, you give Vitamin H Productions permission to link to your video from the contest results or, if unable to find your video on a streaming site, to upload and host your video themselves on this website. You also give Vitamin H Productions permission to showcase your video, fully credited as created by you, at any convention appearance as part of an AMV League Event or within the VHTV project.

Any questions regarding this AMV League event should be directed to pathos@vitaminh.info.

**AMV League Regional Championships**

The AMV League is divided into two divisions - Eastern and Western. All winning and Honorable Mention videos from every Season 5 AMV League Qualifying Event, plus two "wild card" videos from each division (the two highest scoring videos from each division that have not yet qualified) will be entered into the AMV League Regional Championship for the convention's designated division.

These videos will be ranked against each other in order for each of the 7 judgment criteria. For example, if there are 25 videos, the video with the best Concept/Originality will get 25 points. The video with the second-best Concept/Originality will get 24 points, and so on. Then we do the same for Emotional Appeal, Aesthetic Appeal, Rhythm/Sync, Special Effects, and Flow/Editing.

The top 10 videos from each Regional Championship will then move on again to the AMV League National Championships.

**AMV League National Championships**

The 20 videos that qualify for the AMV League National Championships will be ranked against each other in the same way as the AMV League Regional Championships.

The video that scores the most points in the Nationals will receive the coveted title of Best AMV of the Year! We will also have awards for Runner-Up and 2nd Runner-Up.

The convention or venue may set up a booth in the panel room to sell beverages, either alcoholic or non-alcoholic. The room is divided into teams, and each team sends a representative to the front to play. Get a question wrong, and your whole team has to drink. Synopsis: While male homosexuality has been well-documented in Japan since samurai days, love between women, well, hasn’t. Yuri - lesbian manga and literature - has a relatively recent history in Japan, owing largely to Japan’s strict gender roles and conservative culture. Runtime: 60 minutes.

Rating: 13+. This is an LGBT history panel with zero nudity or fanservice. This is NOT a hentai panel.

A traveling merchant makes the acquaintance of a wolf goddess, and the two of them get themselves embroiled in nation-spanning intrigues.

In addition to being a great story on its own, the “pseudo-Medieval-Europe” setting prevents any need to explain cultural details.

THE THREE CREATORS

Who “made” Tenchi?

Since the show is so old, and many of its creators so reclusive, it's difficult for non-Japanese fans to parse just which of the three created what in terms of the original OVA.

The things they created afterwards are much easier to distinguish.
